The **LUANGWA VALLEY**, which marks the end of the Great Rift Valley, is one of the last unspoilt wilderness areas and possibly the finest wildlife sanctuary in Africa. It covers an area of over 9000sq. km. through which the meandering Luangwa River runs. The ox bow lagoons, woodland and plains of the valley host huge concentrations of game - including elephant, buffalo, leopard, lion, giraffe, hippo - and over 400 species of birds.

This is one of the most exclusive experiences on offer in African bush. Walking with the best of guides, dipping deeper into the bush from the fixed camps by camping out for a couple of nights, dinner and stories around the fire, simple but delicious food...

When staying at Tena Tena and Nsefu you can walk between the two for two or three days, camping on the way. This is simple camping but with that extra touch of comfort. There are stand up tents, mattresses on the ground, sheets and blankets, wash basin, shared 60L bucket shower, bush loo, full bar and food service, fully serviced camp (except laundry). The walking is in one of the most lagoon rich areas of the Luangwa and hence the game is superb.

**Day 1** Ideally you would spend the night at a camp not too far off so that you can get up at sunrise and then take a morning walk as a morning activity to the first bush camp. Situated in a secluded area of the Nsefu sector the camp is simple and "bush". Arriving in time for a leisurely lunch followed by a siesta and an afternoon walk will follow tea and then back to camp for sundowners and dinner around the camp fire. **LUANGWA BUSH CAMP**

**Day 2** The day is spent walking in the game rich area of the Luangwa riverine habitat, with ebony groves, many lagoons and of course the Luangwa River itself. During your morning walk the camp will be moved to a second site and lunch will be waiting for you on arrival, alternatively you and your guide may decide to have a picnic lunch en route. This is a very flexible day and your guide will discuss options to suit you and any other guests. **LUANGWA BUSH CAMP**

**Day 3** Following a relaxed breakfast you will walk out of camp and head towards your next lodging, stopping for tea and cake along the way and arriving in time for lunch. This day will vary depending on where you are staying overnight today. If not a nearby property then you may well walk into one of our camps in the Nsefu Sector and then be driven to onward connection. **END OF SAFARI**

#### **THE SPECIALTIES OF THESE SAFARIS ARE:**

**WALKING SAFARIS** The only way to really discover the secrets of the bush. Walks are led by an experienced naturalist and accompanied by an armed game scout.

#### **Walking Fitness**

For general idea of fitness level, here are some guide lines. This does not mean this is the distance and timing of every day. But it gives you an idea of how fit you need to be.

You should also be able to run 50 meters, but please understand that this is not because you will be running from any animal! It's just another way of showing a level of fitness.
